**Figure 3-1**. Regular 2D grid.

## Task 3 – Option 2: Delaunay triangulation

Given the following 2D point set:

- draw the Voronoi diagram first, a triangle ruler will help you (or ruler and compass)
- perform the Delaunay triangulation of the points with the help of your drawing (use a different color)

**Data Visualization – Course Work**
Ludwig Schmutzler, Tom Horak, Wolfgang Büschel
Lecture by Prof. Raimund Dachselt and Prof. Stefan Gumhold
